- The DM&HOs are requested to meet the **District Collector** along with DEO, PO(SSA)after preparing Action Plan in this regard for making this program a objective oriented.
- Awareness activities shall be carried out from district to villages by rallies, banners, posters and media briefings.
- Wide range of awareness activities at school level by conducting drawing competitions and essay writings on sanitation and importance of de worming shall be conducted.
- The programme may be inaugurated by honourable MPs /MLAs/MLCs/MPP/ZPTC and involving mandal level officers at mandal level duly following the protocols.
- The programme may be inaugurated at village level by Panchayat presidents involving SMC members, parents and other dignitaries.
- Ensure distribution of drugs as per requirement to all PHC/UPHCs and to the Anganwadi centres and schools/junior colleges well in advance.
- Ensure coordination between MO-PHC/UPHCs and MEOs/CDPOs of the mandal for proper distribution of the drugs and IEC material in the mandal.

2. Activities at Mandal to be taken up by PHC medical officers

- o To prepare Mandal level action plan for distribution of drugs and to conduct the Deworming Day. Instruct MPDOs to supervise the de worming program in the mandal. Instruct MPDOs to coordinate/converge with all line departments for effective implementation of the program in the Mandal.

3. At Village / Habitation:

(a)At Angawadi Centers: Administering the albendazole tablet half tablet to the age group of 1 to 2 years and 400 mg albendazole tablets (**chewable**) to 2 years 5 years children and to out of school children

(b) **At School/Junior college:** 1st class to 12th standard. Government & Aided Institutions only administering 400 mg albendazole tablets (**chewable**) and to organize de-worming day in their school /college

Certain instructions to Medical Officers:

1. **Tablets to be chewed only not to be swallowed and avoid administering to sick children and children under long medication.**
2. Medical officers are instructed to prepare school wise student list in coordination with CDPO, MEO/CRP & IERTs for proper distribution of Drugs.
3. Medical officers of the PHC/UPHC have to place indent to the RBSK Coordinators to draw the required quantity of tablets for further distribution to Anganwadi centres and schools in their jurisdiction through ANMs and ASHAs.
4. Medical officers have to supply sufficient number of CPM/Cetirizine and Prednisolone tablets to all paramedical staff to treat any emergency cases along with De-worming drugs.
5. Budget will be provided to DM&HO for mobility of MO and his team to utilize on the national de worming day of drug administration and MO is instructed to keep emergency drugs and IV fluids with him/her.
6. MOs have to supervise the program and also to attend any emergency.
7. MOs are instructed to inform to chandranna sanchara chikistha and 108 coordinators regarding this program and to take their support.
8. If any adverse reactions, need to have coordinated approach should be established between Health, Education & WCD (ICDS) Departments. The roles and responsibilities of these three primary departments in adverse events managements are detailed below.

Managing Adverse Events on Deworming

- o One the day of the de-worming, Principals, teachers and Anganwadi workers should be prepared for any Adverse Event or Severe Adverse event by having read through the Adverse Event Protocol/ Guidelines in advance, and ensure that protocol and emergency numbers are on hand.
- o All the teachers and AWWs should clearly understand that children who are sick on the day of De-worming should not be given the De-worming tablet.
- o Teachers and Anganwadi workers MUST administer albendazole tablet under their direct supervision in schools and Anganwadi on De-worming and Mop up Day. The tablet must not be hand over to the child or their family for consumption later at home.

Mild Adverse reaction

- o Events such as nausea, Mild abdominal pain, vomiting, diarrhea and fatigue may occur among children especially those with high worm infestations. These side effects are transient and do not require hospitalization.
- o What should the teacher / Principal /AWWs DO when mild adverse event at school or Anganwadi centers happens?
- o Children with ANY side effects should be taken to an open shady place and allowed to lie down and rest. They should be provided with clean drinking water.

- Teachers, AWWs and parents should be prepared for these events and take immediate action in case that they occur.
- Children should remain at school or Anganwadi till at least 2 hours after treatment.

Severe Adverse Events(SAE)

- A Severe Adverse Events(SAE) is fatal, life – threatening, disabling, or incapacitating or that results in hospitalization after drug intake. Choking hazard/asphyxia is caused a severe adverse event which needs to be responded to immediately
- Separate the affected child from other children and stop de-worming activities.
- Stay calm and communicate Severe Adverse Events is likely not due to the deworming drug.
- School Principal should immediately call the help line number as per shared details by PHC medical officer.
- The School Principal should use information cascade.
- If Ambulance services are available, immediate alert to the Ambulance should be given for the transport of the child nearest Government Hospital.
- The Child parents should be informed immediately.
- Immediate treatment should be provided to the child by health personnel for Medical treatment due to adverse reaction(Annexure 8,Section 6:Guidelines for emergency response team).
- The ANM should inform the Medical Officer who should complete an incident report form(Annexure 4) and submit it to Civil Surgeon the same day.
- Once the report form is received, further notification for the next level must be made as per cascade of information flow
- The designated Officer will sign / confirm the reports, and determine if further investigation is needed and submit the report to the Commissioner health and family welfare immediately. The Commissioner health and family welfare or the designated Officer will be the spokes person.

Management of SAE after De - Worming Day

Teachers, AWWs, Parents, health facilities and all health officials and providers , including ANMs must be vigilant for such incidents in the area and elevate immediately to the information cascade.

Responsibilities after De-Worming day

WHO	WHAT
Parents	Should be informed that though mild AEs are expected and severe events are likely to be unrelated to the drugs,, they are encouraged to report the incident at the earliest to ANM ASHA or school principal if they are very worried about the health of their child.
Teachers/AWWS/ASHAs	Should investigate absenteeism more carefully after deworming day and encourage any sick children to seek treatment or inform an ANM if they are worried
ANMs	To report any case brought into notice to the District Civil Surgeon or Chief Medical Officer through Block Medical Officer or directly as feasible.

Do's and Don'ts for school and Anganwadi to avoid any SAE:

DO	DON'T
<ul style="list-style-type: none"> • Keep telephone numbers for helpline and the nearest health center and / or providers such as ANM and MOIC handy. • Always direct the children to CHEW the medicine to avoid choking. • Administer the tablet under your direct supervision. • For younger children at anganwadi, crush the table first and then administer. 	<ul style="list-style-type: none"> • Do not administer medicine to a sick child. • Do not instruct children to swallow the medicine without chewing first. • Do not hand over medicine to parents/ children for consumption at home.

Recording and reporting formats.

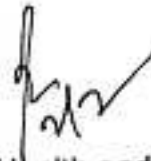

- On De-worming Day – National Deworming day(10th February 2017) and Mop Up day(15th February 2017)
- Anganwadi Teachers will record number of enrolled children de wormed in the school.
- Anganwadi workers will record number of registered, unregistered & out of going school children dewormed in AWC's.
- ASHA will record number of non-enrolled and out of school children dewormed in AWC's in order to receive her incentives.
- ANM will compile the reports received from all schools /AWC's.

At schools level

- Teachers will record number of enrolled children dewormed in the class attendance register.
- For every enrolled student de wormed on 10th February : a single tick (√) mark next to the name of dewormed student in the attendance register.
- For every dewormed student on 15th February 2017: a double tick (√√) mark next to the name of dewormed student in the attendance register.
- At the end teacher will count the single ticks marks & double tick marks in the attendance register, separately for both DD & MUD and will report to the nodal teacher / principal at school.
